

Pritesh Patel MD

Dr. Pritesh Patel is board certified in Physical Medicine & Rehabilitation. After completing medical school at St. George's University, he did his internal medicine internship at Louisiana State University, and Physical Medicine and Rehabilitation residency at Wayne State University. He joins us now from Panama City, where he had a successful inpatient physiatry practice.

What is a Physiatrist?

Physiatrists (fizz-EYE-a-trist), or rehabilitation physicians, are nerve, muscle, and bone experts who treat injuries or illnesses that affect how you move. Rehabilitation physicians are medical doctors who have completed training in the medical specialty of physical medicine and rehabilitation (PM&R).

See a...

Rehabilitation Physician...

The mission of The Spine Institute on the Emerald Coast is to deliver uncompromising excellence in spine care. This is achieved by understanding and diagnosing the spinal problem, and providing appropriate treatment options within a comprehensive plan. Our technologically advanced, academic-level care includes patient education, spinal imaging modalities and diagnostics, physical therapy, interventional procedures, and surgical options when appropriate. Education is a critical part of building an exceptional outcome, and will include areas such as diagnosis, treatment options and alternatives, injury prevention, proper nutrition, and home exercises. Our goal is to restore and maintain optimal health and quality of life
